

WATERSHED EVENTS

Learning ways to keep our water pure and plentiful

Serving the Community since 1999

Learn how to plan for stormwater and what design options can reduce both the amount and the impact of impervious surfaces.

Mike Dietz of Connecticut Nonpoint Source Education for Municipal Officials (CT NEMO) and Darin Overton along with Vincent McDermott of Milone and MacBroom, LLC will share their expertise on Low Impact Development (LID) practices, how they are used to mimic natural hydrology, to manage stormwater, and to protect/improve water quality. They will discuss different LID options and how they can be best implemented as well as how to incorporate LID practices into local regulatory approval processes including commission review of applications before them.

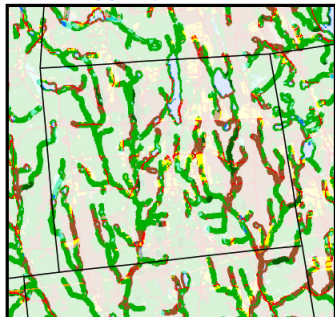

Low Impact Development and Riparian Land Use Changes Workshop

**Thursday March 1, 2012
8:30 AM - 12:30 PM**

Crowne Plaza Hotel of Southbury
1284 Strongtown Road
(Exit 16 off I-84)

\$15.00 Registration Fee.
For more information or to register, contact PRWC at 203-263-0076 or events@pomperaug.org.

Bethlehem, CT
Connecticut's Changing Landscape
Riparian Areas
2006 Land Cover

Learn how the landscapes along our local rivers have been changing over a 20-year span (1985-2006).

Chet Arnold, Center for Land Use Education and Research (CLEAR) at the University of Connecticut, will present on CLEAR's recent Riparian Corridors Study and share data available through the Study's online mapping tools available via <http://www.clear.uconn.edu>. Juliana Barrett of CLEAR and CT Sea Grant will then briefly review strategies to protect and restore these critically important areas.
